## TANK RENTAL AGREEMENT FOR SELF-TRANSPORT OF FROZEN SEMEN

The cryo tank you are using to ship frozen semen is a "Dry shipper" tank, which means it does not contain any measurable liquid nitrogen. The tank has been charged with liquid nitrogen and should hold liquid nitrogen temperature (-196 degrees C) for approximately 14 days.

The tank is closed with Zip ties for your safety and to keep the tank at the proper temperature. Please do not tamper with it in any way and keep it in an upright position in your car and safely anchored to prevent it from moving around freely.

If you pick up the tank and return it on the <u>same day</u>, there will only be the fee to fill and prepare the tank and no rental fee for your usage. If you need the tank longer, there will be a base rental fee for 7 days and then a daily fee for every day after 7 days that you have the tank in your possession. Please sign the waiver below:

I agree to be completely responsible for the cryo shipping tank being used to transport frozen canine semen and will return it promptly to the Animal Hospital of Woodstock. Should there be any loss or damage to the tank and/or the transport case, I agree to be responsible for the actual replacement cost and authorize these charges to be placed on the credit card number listed below.

The Animal Hospital of Woodstock will not be held liable for any damage incurred to the rented cryo tank and/or transport case resulting in the thawing of the frozen semen and is not responsible for any personal or property injuries incurred while the tank is in my possession.

## **Payment Information**

You may either fill out the credit card information below and FAX or E-mail it to us or pay when you pick up the tank. We will require a deposit of \$1300.00 held on the card until the tank and transport case are safely returned.
